Dear Mr. Leonard:

Discharge Monitoring and Reporting Program  
Diablo Canyon Power Plant - NPDES No. CA0003751

Corrections to the report for the third quarter of 1990 of the Diablo Canyon Power Plant Discharge Monitoring Program, in accordance with Section B.13. of the Standard Provisions and Reporting Requirements for National Pollutant Discharge Elimination System Permits, January 1985 are enclosed.

The total residual chlorine data for Discharge 001 for the months of August and September 1990, submitted on October 20, 1990, were reported in units of milligrams/liter rather than micrograms/liter. All of the results are within the discharge limits specified in Order 90-09.

Corrections have been made to page (M)2 for the months of August and September 1990, and are enclosed.

If you have further questions, please contact Mr. Paul G. Dahan of my staff at (805) 545-4054.

Kindly acknowledge receipt of this material on the enclosed copy of this letter and return it in the enclosed addressed envelope.

Sincerely,

*John D. Townsend for J. Townsend*
