Gentlemen:

Enclosed is an application for amendment to Facility Operating License Nos. DPR 80 and DPR-82. This license amendment request proposes to change the above referenced Technical Specifications (TS). The changes include clarifying TS issued in License Amendments 84 and 83, "Eagle 21 Reactor Protection System Modification with Bypass Manifold Elimination," deleting TS references to RM-14A and RM-14B, removing cycle-specific TS requirements, and incorporating several editorial corrections.

PG&E requests that the NRC assign a low priority for review and approval of this LAR since the changes proposed in this LAR are not required to address an immediate safety concern. PG&E requests that the proposed changes become effective 30 days from issuance of the license amendment.

Sincerely,

A handwritten signature in black ink, appearing to read 'Gregory M. Rueger'. The signature is fluid and cursive.
