Reactor Trip on Units 1 and 2 Due to Major Western Grid Disturbance

Dear Commissioners and Staff:

Pursuant to 10 CFR 50.73 (a)(2)(iv), PG&E is submitting the enclosed revision to Licensee Event Report 1-96-012-00 regarding reactor trips on Units 1 and 2 due to a major western grid disturbance. This revision is being submitted to provide the time the unit was on natural circulation and that the Western System Coordinating Council review did not provide any recommended corrective actions that affected Diablo Canyon Power Plant. Changes are noted by revision bars in the right hand margins.

This condition does not affect the health and safety of the public.

Sincerely,
