SUBJECT: NRC INSPECTION REPORT 50-275/96-21; 50-323/96-21

Thank you for your letter of February 10, 1997, in response to our letter and Notice of Violation dated January 9, 1997. We have reviewed your reply and find it responsive to the concerns raised in our Notice of Violation. However, we are interested in obtaining additional details related to the review of the procedure commitment database. Specifically, we request that you provide a written response within 30 days after completion of the database review describing: (1) the scope of the procedure database review; (2) the number and characterization of the deficiencies found; and (3) the actions taken to maintain the database current and accurate. In addition, we note that you continue to evaluate Revision 8 to Procedure EOP E-1.3 which may change your conclusion on whether an unreviewed safety question was created. Please provide an update to your letter if your conclusions changes.

We will review the implementation of your corrective actions during a future inspection to determine that full compliance has been achieved and will be maintained.

Sincerely,

Arthur T. Howell III, Acting Director
Division of Reactor Projects
