SUBJECT: COPY OF THE FINAL ENVIRONMENTAL IMPACT STATEMENT FOR THE RENO CREEK IN SITU RECOVERY PROJECT IN CROOK COUNTY, WYOMING, SUPPLEMENT TO THE GENERIC ENVIRONMENTAL IMPACT STATEMENT FOR IN SITU LEACH URANIUM MILLING FACILITIES (DOCKET NUMBER: 40-9092)

Dear Librarian:

The U.S. Nuclear Regulatory Commission (NRC) staff is reviewing a source and byproduct materials license application submitted by AUC LLC for the construction, operation, aquifer restoration, and decommissioning of the proposed Reno Creek In Situ Recovery (ISR) Project. The facility is proposed to be located in Campbell County, Wyoming.

As part of the review of the application, the NRC staff has prepared a final Supplemental Environmental Impact Statement (SEIS) for the Reno Creek ISR Project in Campbell County, Wyoming (NUREG-1910, Supplement 6). The final SEIS includes an analysis of relevant environmental issues, including potential impacts on historic and cultural resources, and documents the NRC staff's determination regarding the environmental impacts from the construction, operation, aquifer restoration, and decommissioning of the Reno Creek ISR Project.

Enclosed is a copy of the final SEIS to be kept on your shelf. Please keep this copy of the final SEIS until at least one year from receipt of this letter. We appreciate your willingness to assist the public in participating in the environmental review process.

If you have any questions or require additional information, please contact Ms. Jill Caverly, Senior Project Manager, by phone at (301) 415-7674, or via e-mail at Jill.Caverly@nrc.gov.

Sincerely,

/RA/

Cinthya I. Roman, Chief
