Nuclear Regulatory Commission  
Region I  
Division of Nuclear Materials Safety – Medical Branch  
King of Prussia, PA 19406

Dear Ms. Weidner

03019630

I respectfully request to amend my existing radioactive materials 52-19984-01 (Hospital Perea) to add Theragenics I-Seed Model AgX100 I-125 sealed source (NR0645S102S) for the use of manual brachytherapy.

I am requesting expedited approval of this amendment request as our current source Medi-Physics, Inc. Model 6711 used for manual brachytherapy will no longer be available after January 1, 2017. Therefore in order to continue to treat and cure patients, we need our RML updated as soon as possible

Please let me know if you have any questions.

Sincerely,

Carmelo Perez

Radiation Safety Officer
