**Subject:** [External\_Sender] Additional Information Requested

Yen,

Based upon our discussion earlier today, Vermont Yankee (VY) understands that additional information is requested to support VY's Exemption Request dated November 9, 2016 (BVY 16-030 -or- ML 16319A102). The information requested is as follows:

Please provide the technical justification behind the statement "the requested exemption would result in an estimated reduction in dose rates by a factor of two, and an approximate total reduction in operator dose by one half."

If you could confirm that I have properly captured the request for supplemental information, that would be helpful.

Thank you.
