MEMORANDUM TO: Joseph Colaccino, Branch Chief
Licensing Branch 3
Division of New Reactor Licensing
Office of New Reactors

FROM: Barbara Hayes, Project Manager */RA - M. Notich for/*
Licensing Branch 3
Division of New Reactor Licensing
Office of New Reactors

SUBJECT: SUMMARY OF PUBLIC COMMENTS RELATED TO PROPOSED
REVISION OF RG 1.206, "APPLICATIONS FOR NUCLEAR
POWER PLANTS"

The U.S. Nuclear Regulatory Commission (NRC) staff initiated the revision of Regulatory Guide (RG) 1.206 in 2014 with the overall intent to institutionalize lessons learned from prior and ongoing Title 10 of the *Code of Federal Regulations* (10 CFR) Part 52, "Licenses, Certifications, and Approvals for Nuclear Power Plants," application reviews and to provide updated guidance to future applicants. The draft guide (DG) has a revised title of "Applications for Nuclear Power Plants," and is currently being prepared for public comment. This memorandum summarizes how development of the DG has been informed by written comments received to date as well as comments received in the most recent and final public meeting regarding the proposed revision.

Attachments A, B, and C describe how three sets of written comments received from the Nuclear Energy Institute (NEI) have informed the DG development process. Attachments A, B, and C represent all written comments received to date and reflect discussions from five public meetings that NRC staff conducted over the course of the development process. A final public meeting was conducted on September 26, 2016 for which no written comments have been received. Attachment D describes how key comments from the final public meeting informed the development process. Draft sections of the proposed DG were shared in advance of the public meetings along with presentations on planning, structure, and content.
