Casper, Wyoming 82601

**SUBJECT: VOID LETTER CONCERNING APPLICATION FOR LICENSE AMENDMENT MAIL
CONTROL NUMBERS 591555 and 592023.**

Dear Mr. Dobos:

This concerns the subject application for an amendment to your material license in accordance with letter dated September 15, 2016 requesting to remove a location from your license and release the location for unrestricted use in accordance with 10 CFR Part 20. An NRC confirmatory survey and inspection was conducted on November 14 – 15, 2016 (Inspection Report 030-29502/2016-002; ML16334A524).

The NRC inspector informed you that additional survey documentation is needed for samples of the sump in the Neutralization Area, the drain piping, and the ventilation ductwork. The NRC inspector also informed you that additional documentation of those surveys would be required for the NRC to approve the amendment request. As of December 21, 2016, we have not received the additional information. This action is voided without prejudice until additional surveys are provided and evaluated.

You can contact me at 817-200-1127 if you have any questions about this letter.

Thank You for your cooperation.

Sincerely,

A handwritten signature in blue ink that reads "Michelle M. Hammond".

Michelle M. Hammond, M.Sc., Health Physicist
