Subject: [External_Sender] Reportable Unplanned Release HH1-5
Date: Tuesday, December 27, 2016 1:06:37 PM

An unplanned release occurred on 12/23/2016 at the Lost Creek ISR Project (PT788/SUA-1598) site resulting in the release of an estimated 582 gallons of injection fluid. The release occurred when an injection header pipe broke/failed in Header House 1-5. The release was reported on the WDEQ-LQD spill report website spill ID 161227-1048. Additional details will be made available in the pending release report.

If you have any questions, I will be back in the office tomorrow 12/28/2016.
