Docket No. 50-275, OL-DPR-80  
Docket No. 50-323, OL-DPR-82  
Diablo Canyon Power Plant Units 1 and 2  
Request for 180-Day Implementation Schedule for License Amendment Request 16-01, "Application to Revise Technical Specifications to Adopt TSTF-523, 'Generic Letter 2008-01, Managing Gas Accumulation,' Using the Consolidated Line Item Improvement Process"

References: 1. PG&E Letter DCL-16-001, "License Amendment Request 16-01, Application to Revise Technical Specifications to Adopt TSTF-523, 'Generic Letter 2008-01, Managing Gas Accumulation,' Using the Consolidated Line Item Improvement Process," dated January 21, 2016 (ADAMS Accession No. ML16021A067)

Dear Commissioners and Staff:

License Amendment Request (LAR) 16-01, "Application to Revise Technical Specifications to Adopt TSTF-523, 'Generic Letter 2008-01, Managing Gas Accumulation,' Using the Consolidated Line Item Improvement Process," was submitted by Pacific Gas and Electric Company (PG&E) in Reference 1. In that submittal, PG&E requested the license amendments to be effective upon their issuance by the NRC, and to be implemented within 120 days from the date of issuance.

To avoid potential conflicts with the upcoming planned refueling outage for Diablo Canyon Power Plant Unit 1, PG&E hereby requests that the implementation period for the amendments be 180 days from their date of issuance, rather than 120 days.

This request does not affect the results of the technical evaluation or the no significant hazards consideration determination previously transmitted in Reference 1.

PG&E makes no new or revised regulatory commitments (as defined by NEI 99-04) in this letter.

If you have any questions regarding this submittal, please contact Mr. Hossein Hamzehee at (805) 545-4720.

I state under penalty of perjury that the foregoing is true and correct.

Executed on December 27, 2016.

Sincerely,

Jan A. Nimick  
*Senior Director, Nuclear Services*
