"INFORMATION NEEDED FOR CHANGE OF CONTROL"

December 12, 2016

Definitions:

Control: Control of a license is in the hands of the person or persons who are empowered to decide when and how that license will be used. That control is to be found in the person or persons who, because of ownership or authority explicitly delegated by the owners, possess the power to determine corporate policy and thus the direction of the activities under the license.

Transferee: A transferee is an entity that proposes to purchase or otherwise gain control of a U.S. Nuclear Regulatory Commission-licensed operation.

Transferor: A transferor is an NRC licensee selling or otherwise giving up control of a licensed operation.

Information Needed for Transfer of Control

Licensees must provide full information and obtain prior written consent before transferring control of the license. Provide the following information concerning changes of control by the applicant (transferor and/or transferee, as appropriate). If any items are not applicable, so state.

- 1. Provide a complete description of the transaction (transfer of stocks or assets, or merger). Indicate whether the name has changed and include the new name. Include the name and telephone number of a licensee contact whom the NRC may contact if more information is needed.

Betterroads Asphalt Corporation will no longer own or operate by Jorge Luis Diaz Irizarry. The laboratory equipment, nuclear gauges and license will be transfer and operated by Puerto Rico Asphalt and the owner will be Jorge Arturo Diaz Mayoral. There will be no change in license number 52-19845-01.
