Dear Vice Minister Liu:

On behalf of the U.S. Nuclear Regulatory Commission, it is my pleasure to congratulate you on your recent appointment as Vice Minister and Administrator of the National Nuclear Safety Administration (NNSA). I am confident that NNSA will enjoy great success under your capable leadership.

The Nuclear Regulatory Commission values its relationship with NNSA, and you have been a critical partner during your long career there. At this important time when both of our countries will soon commission AP1000 reactors, I hope to continue to strengthen the cooperation between our organizations.

I look forward to seeing you at the Seventh Review Meeting of Parties to the Convention on Nuclear Safety in March, during which I would appreciate the opportunity to meet with you if your schedule permits.

Sincerely,
