Honorable Nunzio J. Palladino
Chairman
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Dr. Palladino:

SUBJECT: INDIAN POINT SPECIAL PROCEEDING

Your letter of November 6, 1985, requests ACRS review of the comments and recommendations by five members of the ACRS related to the Indian Point Special Proceeding and related Commission action.

The subject and content of a proposed ACRS report on the Indian Point Special Proceeding were discussed by the Committee over a period of several months, but a consensus was not reached. The subject letter, therefore, should be considered as the views of individual members. The ACRS as a collegial body decided not to comment on this matter.

Sincerely,

David A. Ward
Chairman
