Re: **Amendment to Radioactive Material License No. 21-32805-01**

Dear Sir/Madam:

We are in the process of purchasing 4 additional CPN gauges. That will give us a total of 5 CPNs and we would like to have room to add one more should the need arise this construction season.

Please amend Items 8A and 8B of our Radioactive Material License to read the following:

ITEM 8:

- | | | |
|----|----------------|---|
| A. | Cs-137 | No single source
exceed 10 mCi
each. Limit not to
Exceed 60 mCi. |
| B. | Americium- 241 | No single source
exceed 50 mCi
each. Limit not to
Exceed 300 mCi. |

If you have any questions or comments regarding this matter, please feel free to contact me at (906) 428-1008

Sincerely,

Jeremy Barron
Radiation Safety Officer
