NUCLEAR REGULATORY COMMISSION**  
REGION I  
2100 RENAISSANCE BLVD.  
KING OF PRUSSIA, PA 19406-2713

January 11, 2017

Felícita Bonilla Rivera, MHSA  
Executive Director  
Hospital de la Concepción  
Road #2, Km. 173.4  
San Germán, Puerto Rico 00683

SUBJECT: HOSPITAL DE LA CONCEPCIÓN, LICENSE AMENDMENT, MAIL CONTROL  
NO.592503

Dear Ms. Rivera:

This refers to your license amendment request dated December 8, 2016, submitted by your Radiation Safety Officer and subsequent submission dated December 1, 2016, and received December 18, 2016, signed by you. Please find enclosed Amendment No. 11 authorizing the possession and use of Theragenics I-Seed Model AgX100.

Please note that in our review of your license it was discovered that the Ground Floor Nuclear Medicine (NM) department remains listed as a location of use in addition to the current First Floor NM department. Your Radiation Safety Officer indicated that the Ground Floor NM department has not been used for many years. Please submit close out documentation for this area to have it removed from your license at your earliest convenience.

An environmental assessment for this action was not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please contact me at 610-337-5076 or via electronic mail at [robin.elliott@nrc.gov](mailto:robin.elliott@nrc.gov) so that appropriate corrections or answers can be provided.

You will be periodically inspected by the NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action(s) against you. This could include issuance of a Notice of Violation, or Imposition of a Civil Penalty, or an Order Suspending, Modifying or Revoking Your License as specified in the NRC Enforcement Policy. The NRC Enforcement Policy is available at:  
<http://www.nrc.gov/reading-rm/doc-collections/enforcement/>.

An electronic version of the NRC's regulations is available on the NRC Web Site at: [www.nrc.gov](http://www.nrc.gov). Additional information regarding medical uses of radioactive materials may be obtained on the NRC Web Site at: <http://www.nrc.gov/materials/miau/med-use-toolkit.html>. This site also provides the updated Training and Experience NRC Form 313A series of forms and guidance, as well as information on the revised regulations for naturally-occurring and accelerator-produced radioactive materials (NARM).

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web Site at: <http://www.nrc.gov/about-nrc/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web Site at: <http://www.nrc.gov/reading-rm/adams.html>.

Thank you for your cooperation.

Sincerely,

**/ RA /**
