NOTIFICATION

The U.S. Nuclear Regulatory Commission (NRC) staff (Staff) is filing this notification to inform all participants that the Staff has provided the Commission with a Notification of Significant Licensing Action (NSLA) stating that, on or about January 26, 2017, the Staff will issue an order directing the transfer of control of the decommissioning trusts (Master Trust) for Indian Point Nuclear Generating Unit No. 3 (IP3) and the James A. FitzPatrick Nuclear Power Plant (FitzPatrick) from the Power Authority of the State of New York (PASNY) to Entergy Nuclear Operations, Inc. (ENO); will consent to an amendment to the agreement governing the Master Trust, which would authorize the transfer of the Master Trust to ENO; and will approve license amendments to license conditions in the IP3 and FitzPatrick operating licenses that would modify those that refer to PASNY as the holder of the Master Trust, such that they refer to ENO instead, and would delete those that impose facility-specific requirements on decommissioning trust agreements, such that IP3 and FitzPatrick would be subject to the Commission's generic regulations governing decommissioning trust agreements at 10 C.F.R. § 50.75(h)(1)-(3) instead. The NSLA is attached.

Respectfully submitted,
