Re: Docket ID NRC-2016-0122, Draft Program-Specific Guidance About Medical Use Licenses

Dear Ms. Bladey:

The ACNM Board of Directors has reviewed the draft guidance on Appendix U announced in the Federal Register on December 6, 2016 (81 FR 87978) and comments submitted on Jan. 6, 2017 by Siegel, Stabin, Marcus, and Sacks.

The ACNM wholeheartedly supports those comments and we also question the utility of such a revision of what is established and safe current practice.

Respectfully submitted,

Patrick M Colletti MD  
President, American College of Nuclear Medicine  
Professor of Radiology  
Keck School of Medicine of USC
