General Comment

4. Please note, regarding Oscar Shirani's QA whistle-blowing mentioned in my previous comments, that it was fully supported and backed up by Dr. Ross Landsman, NRC Region III cask inspector. See: <https://web.archive.org/web/20160331064027/http://www.nirs.org/radwaste/atreactorstorage/nrc_holtec.pdf>, for Dr. Landsman's memo to his superiors expressing his full support for Shirani's QA allegations (the handwritten notes are by Shirani, and mention the devious manner in which Exelon Nuclear orchestrated his firing, and then defended itself against his wrongful termination lawsuit).
