Docket: PROJ0769

U.S. Nuclear Regulatory Commission
ATTN: Document Control Desk
One White Flint North
11555 Rockville Pike
Rockville, MD 20852-2738

SUBJECT: NuScale Power, LLC Submittal of Chapter 4 Replacement Figures for the NuScale Final Safety Analysis Report (NRC Project No. 0769)

REFERENCE: NuScale Power, LLC Letter to NRC, "NuScale Power, LLC Submittal of the NuScale Standard Plant Design Certification Application (NRC Project No. 0769)," dated December 31, 2016.

In the referenced letter, NuScale Power, LLC (NuScale) submitted the Final Safety Analysis Report (FSAR) for the NuScale standard plant design certification application. The purpose of this letter is to provide replacements for two figures in Chapter 4 of the FSAR. The two figures that are being replaced are Figures 4.6-4 and 4.6-5. These figures inadvertently contained proprietary information. The enclosure to this letter contains a replacement for Chapter 4 of the FSAR that removes the proprietary information from Figures 4.6-4 and 4.6-5. The revised Chapter 4 of the FSAR does not contain proprietary or security-related information. Chapter 4 is being submitted electronically on a digital versatile disc (DVD). The DVD contains two identical versions of Chapter 4, as follows:

- Part 02 Tier 02 Chapter 04_P.pdf
- Part 02 Tier 02 Chapter 04_NP.pdf

Please feel free to contact Jennie Wike at 541-360-0539, or jwike@nuscalepower.com, if you have any questions.

This letter makes no regulatory commitments and no revisions to any existing regulatory commitments.

Sincerely,

Thomas A. Bergman
Vice President, Regulatory Affairs
NuScale Power, LLC
