### PART I.C COMMENTS ( Use attached Comments continuation page if required)

In conformance with the FOIA Improvement Act of 2016, the NRC is informing you that you have the right to seek assistance from the NRC's FOIA Public Liaison.

There are a few facilities specifically licensed for Low Level Waste (LLW) storage by agreement states- e.g. WCS in Texas, Energy Solutions in SC and TN. NRC regulations do not require licensees to differentiate between radioactive material and LLW, there are likely dozens to hundreds of ad hoc LLW "storage" facilities at any given time.

**PART I.C COMMENTS (Continued)**

This information is located at: <http://www.nrc.gov/waste/llw-disposal/public-outreach/llw-extended-storage-information.html>. You may also find enclosed the entire list of ISFSI (independent spent fuel storage installation), which located in public ADAMS under ML 15240A058. Of those sites, only two are not spent fuel, which are Private Fuel Storage and the DOE Idaho Spent Fuel Storage Facility, both of which are specific licensed ISFSIs.

Dear FOIA Requester:

The FOIA Improvement Act of 2016, which was enacted on June 30, 2016, made several changes to the Freedom of Information Act (FOIA). Federal agencies must revise their FOIA regulations to reflect those changes by December 27, 2016. In addition to revising our regulations, we intend to update the Form 464, which we use to respond to FOIA requests.

In the interim, please see the comment box in Part I.C of the attached Form 464. The comment box includes information related to the recent changes to FOIA that is applicable to your FOIA request, including an updated time period for filing an administrative appeal with the NRC.

Sincerely yours,

*Stephanie Blaney /S/*
