---

Lockheed Martin  
License No. 10-01425-16  
Docket No. 030-10638  
Mail Control No. 592529

Mr. Parkinson

In order to continue the review of your application to amend your NRC license, we need additional information. If you have any questions, please contact me (610-337-5089).

1. In response to the our telephone conversation on January 23, 2017, please provide more information to support the probable disposition of the Pu-Be source that is requested to be removed from the license.
2. Please describe the surveys/wipe tests that were performed and the results of those measurements to demonstrate that no residual radioactive material remained after the paraffin melt down.

Please respond in writing with **a signed and dated** letter. Please submit the signed response document as an attachment to an e-mail. Please be sure to include the Control No. 592529 on your response. We would appreciate a response within 10 days in order to expedite review of the license amendment request.

Thank you for your cooperation.
