SUBJECT: ANNUAL LETTER - GENERIC FUNDAMENTALS EXAMINATION (GFE)
SECTION OF THE WRITTEN OPERATOR LICENSING EXAMINATION
FOR 2017

The U. S. Nuclear Regulatory Commission (NRC) plans to administer the generic fundamentals examination (GFE) section of the written operator licensing examination on the following dates for the 2017 calendar year:

Date of GFE exams for 2017	Date registration letters from facilities due to NRC
March 8, 2017	February 6, 2017
September 6, 2017	August 7, 2017

To register personnel to take the GFE, an authorized representative of your facility must submit a letter to Ms. Catherine Haney, Regional Administrator, Region II, with a copy addressed as follows:

Chief, Operator Licensing and Training Branch, NRR
Mail Stop O 7 D23
U.S. Nuclear Regulatory Commission
Washington, DC 20555-0001

Pursuant to 10 CFR 55.31(a)(3), an applicant for an operator license must submit a written request from an authorized representative of the facility licensee by which the applicant will be employed that the written examination and operating test be administered to the applicant. The NRC permits a request for administration of the GFE section of the written exam to be made and granted prior to the applicant's successful completion the facility licensee's requirements to be licensed as an operator or senior operator and prior to the facility licensee's certification of the need for an operator or a senior operator to perform assigned duties. However, the facility licensee should only request administration of the GFE section of the written exam for applicants who will have completed fundamentals training by the date of the examination.

The letter should identify the individuals who will take the examination. The letter should also identify the personnel who will have access to the examinations before they are administered (e.g., proctors) and include the address and name of the individual to whom the examinations are to be sent.

To allow the NRC to assign docket numbers, both the NRC Regional Administrator and the Chief, Operator Licensing and Training Branch, should receive your letter **30 calendar days before each desired examination date** shown above. A sample registration letter is enclosed.

Copies of the administered BWR and PWR GFEs and their answer keys will be available for review in the NRC's Agencywide Documents Access and Management System (ADAMS) immediately after administration of the second subsequent GFE. The NRC will also update its GFE Web page, <http://www.nrc.gov/reactors/operator-licensing/generic-fundamentals-examinations.html>, at this time.

If you have any questions concerning this examination, please contact Jacob Dolecki at 301-415-2947.

Sincerely,

/RA/

Operations Branch 1
Division of Reactor Safety
