NIAGARA MOHAWK POWER CORPORATION

NIAGARA  MOHAWK

300 ERIE BOULEVARD WEST
SYRACUSE, N. Y. 13202

August 3, 1973

Mr. Jan Norris
Project Manager
Directorate of Licensing
United States Atomic Energy Commission
Washington, D.C. 20545

Dear Mr. Norris:

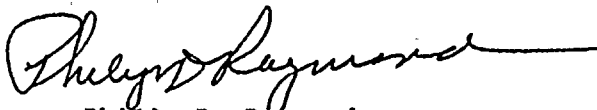

Re: Nine Mile Point Unit 2
Docket No. 50-410

For your information we would like to point out certain inconsistencies now appearing between the Environmental Report and the Preliminary Safety Analysis Report for Nine Mile Point Unit 2. These were generated by changes in the latter document. The Preliminary Safety Analysis Report as supplemented now represents present design features and parameters.

The present design of the offgas system is described in Section 9 of the Preliminary Safety Analysis Report and its Supplements 5 and 11. The gaseous releases from this revised system are essentially the same as those for the system described in Section 3.6 of the Environmental Report.

The liquid waste system present design is also described in Section 9 of the Preliminary Safety Analysis Report and in its Supplement 11. The liquid waste releases from this revised system are essentially the same as the releases from the system described in Section 3.6 of the Environmental Report.

Very truly yours,

Philip D. Raymond
Vice President-Engineering

6057
