Docket No: 50-410

Niagara Mohawk Power Corporation
ATTN: Mr. Gerald K. Rhode
Vice President-Engineering

Syracuse, New York 13202

Gentlemen:

We have reviewed your letter to the NRC staff dated December 15, 1975 requesting our approval of certain modifications to your Quality Assurance Program for Nine Mile Point, Unit 2. In that letter you stated that you propose to substitute the new Stone and Webster "Standard Nuclear Quality Assurance Program SWSQAP 1-74" with certain additions, for Section 3 of Appendix D to the Nine Mile Point, Unit 2 Safety Analysis Report.

The staff has previously reviewed SWSQAP 1-74 on a generic basis and found it to be acceptable as noted in the staff's letter, R. Vollmer to Stone and Webster, dated December 31, 1974. We have also reviewed the proposed additions to SWSQAP 1-74 referenced in Attachment 1 of your December 15, 1975 letter and find these to be acceptable.

Accordingly, we approve the modification to your Quality Assurance Program as specified in your December 15, 1975 letter. However, we will require that you modify your Preliminary Safety Analysis Report for Nine Mile Point - 2 to incorporate these changes.

Sincerely yours,

Original Signed by

John F. Stolz
