Docket No. 50-410

Niagara Mohawk Power Corporation
ATTN: Mr. Thomas J. Brosnan
Vice President and Chief
Engineer
300 Erie Boulevard West
Syracuse, New York 13202

Gentlemen:

We have received your application for authorization to construct and operate Nine Mile Point Unit 2. Docket No. 50-410 has been assigned to this application and should be referenced in all future correspondence relating to this project.

A copy of a related notice, which is being transmitted to the Office of the Federal Register for publication, is enclosed. A notice will also be published in Public Power, Electric Light and Power, Electrical World, Rural Electrification and Public Utilities Fortnightly.

As the text of subsection 182c. of the Atomic Energy Act of 1954, as amended, (P.L. 91-560) indicates, the purpose of publication in trade journals and newspapers is to give reasonable notice to municipalities, private utilities, public bodies and cooperatives which might have a potential interest in the facility. We have determined that publication in the above journals and in the following newspapers amply fulfills this purpose: the Herald-Journal (Syracuse, New York), The Palladium-Times (Oswego, New York), The Fulton Patriot (Fulton, New York), The Pulaski Democrat (Pulaski, New York), Mexico Independent (Mexico, New York), Watertown Daily Times (Watertown, New York), and The Oswego Valley News (Fulton, New York).

Sincerely,

Original signed by:
Roger S. Boyd

Item 9	Sub-item 9.1	14.1	kg	Weight of component
Item 10	Sub-item 10.1	8.9	kg	Weight of component

UNITED STATES ATOMIC ENERGY COMMISSION

DOCKET NO. 50-410

NIAGARA MOHAWK POWER CORPORATION

NOTICE OF RECEIPT OF APPLICATION FOR CONSTRUCTION PERMIT AND FACILITY
LICENSE AND APPLICANT'S ENVIRONMENTAL REPORT;
TIME FOR SUBMISSION OF VIEWS ON ANTITRUST MATTER

Niagara Mohawk Power Corporation, 300 Erie Boulevard West, Syracuse, New York 13202, pursuant to Section 103 of the Atomic Energy Act of 1954, as amended, has filed an application dated June 7, 1972, for authorization to construct and operate a single cycle, forced circulation, boiling water nuclear reactor at its site, located in the town of Scriba, Oswego County, New York. The site consists of 900 acres and is located 300 feet due east of Nine Mile Point Unit 1 (Docket No. 50-220) on the southeast shore of Lake Ontario, approximately seven miles northeast of the City of Oswego.

The proposed nuclear facility, designated by the applicant as Nine Mile Point Unit 2, is designed for initial operation at approximately 3300 megawatts (thermal) with a net electrical output of approximately 1100 megawatts.

Any person who wishes to have his views on the antitrust aspects of the application presented to the Attorney General for consideration shall submit such views to the Commission within sixty (60) days after July 14, 1972.

A copy of the application is available for public inspection at the Commission's Public Document Room, 1717 H Street, N. W., Washington, D. C. 20545, and at the Oswego City Library, 120 E. Second Street, Oswego, New York 13126.

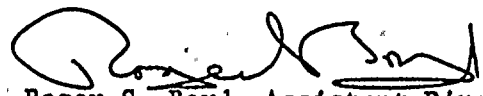

Niagara Mohawk Power Corporation has also filed, pursuant to the National Environmental Act of 1969 and the regulations of the Commission in Appendix D to 10 CFR Part 50, a report entitled, "Applicant's Environmental Report - Construction Permit Stage," dated June, 1972. The report has been made available for public inspection at the aforementioned locations. The report, which discusses environmental considerations related to the proposed construction of Nine Mile Point Unit 2, is also being made available at the New York State Office of Planning Services, 488 Broadway, Albany, New York 12207, and at the Central New York Regional Planning and Development Board, 321 East Water Street, Syracuse, New York 13202.

After the report has been analyzed by the Commission's Director of Regulation or his designee, a draft environmental statement related to the proposed action will be prepared by the Commission. Upon preparation of the draft environmental statement, the Commission will, among other things, cause to be published in the FEDERAL REGISTER a summary notice of availability of the draft statement. The summary notice will request comments from Federal agencies, State and local officials, and interested persons on the proposed action and on the draft statement. The summary notice will also contain a statement to the effect that comments will be made available when received.

Dated at Bethesda, Maryland this day of July, 1972.

FOR THE ATOMIC ENERGY COMMISSION

Roger S. Boyd, Assistant Director
for Boiling Water Reactors
Directorate of Licensing
