Re: Niagara Mohawk Power Corporation  
Nine Mile Point Unit 2  
AEC Docket No. 50-410

Dear Mr. Boyd:

As counsel for the Applicant in the above-captioned proceeding, we hereby transmit one (1) original and sixty-nine (69) copies of a letter from one of the Applicant's officers clarifying certain matters contained in its Preliminary Safety Analysis Report and in its Environmental Report.

Formal submissions covering this matter will be made in both documents in the very near future.

Very truly yours,

Re: Niagara Mohawk Power Corporation  
Nine Mile Point Unit 2  
AEC Docket No. 50-410

Dear Mr. Boyd:

The purpose of this letter is to clarify Sections 3.6.2.2.9 and 5.2.3.1 of the Nine Mile Point Unit 2 Environmental Report and Supplementary Information Section 1.12.1 of the Preliminary Safety Analysis Report wherein it was stated that the turbine building ventilation "discharge point will be revised to an elevated release point or equivalent (e.g., 100 meters)." This will confirm our oral statement made to the AEC Regulatory Staff that the Nine Mile Point Unit 2 facility will include a stack at least 100 meters in height. In addition to offgases, this stack will also accommodate turbine building ventilation exhaust.

The turbine building internal pressure will normally be slightly negative with respect to atmosphere.

These features of the facility will be fully described in supplements to the Preliminary Safety Analysis Report and Environmental Report in the near future.

Sincerely,

A handwritten signature in dark ink, appearing to read "T.J. Brosnan".

T.J. Brosnan
