Regulatory Docket File

Mr. William H. Regan, Jr.  
Chief of Environmental Projects  
Branch #3  
U. S. Nuclear Regulatory Commission  
Washington, D. C. 20555

Re: Nine Mile Point Unit 2  
Docket No. 50-410

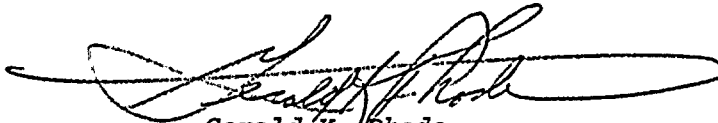

Dear Mr. Regan:

This letter is to advise you that the following cooling tower information, requested at our February 26, 1976 meeting on Nine Mile Point Unit 2, will be submitted by June 15, 1976.

- 1) A design report on the cooling tower system.
- 2) A preliminary analysis of the cost differences between the cooling tower system and a once-through cooling system.
- 3) Preliminary data on the environmental effects of a cooling tower to the surrounding area.
- 4) A memorandum to support our position that installation of a cooling tower does not represent a change of sufficient magnitude to warrant more than the Nuclear Regulatory Commission's staff review at this time.

Very truly yours,

NIAGARA MOHAWK POWER CORPORATION

  
Gerald K. Rhode  
Vice President - Engineering
