Mrs. Katherine Penn
 Council on Environmental Quality
 New Executive Office Building
 17th & Pa. Avenue, N.W. - Room 5101
 Washington, D.C. 20006

Dear Mrs. Penn:

A Final Environmental Statement, prepared by the Office of Nuclear Reactor Regulation and related to construction by the Niagara Mohawk Power Corporation of the Nine Mile Point Nuclear Station, Unit 2, was forwarded to you on June 8, 1973. On July 22, 1974, we forwarded you a copy of an Initial Decision authorizing issuance of a construction permit which had been issued by the Atomic Safety and Licensing Board (Licensing Board) designated to preside in the subject proceeding.

On April 8, 1975, an Atomic Safety and Licensing Appeal Board (Appeal Board) designated for the proceeding issued a Decision which affirmed the Licensing Board's decision. The Appeal Board's decision also modifies the contents of the Final Environmental Statement. In accordance with the provisions of 10 CFR Part 50, Appendix D, Section A.11 of the Commission's regulations, which was applicable to the subject proceeding, we are enclosing a copy of the Appeal Board decision.

Also enclosed is a copy of the Notice of Availability of the Appeal Board's Decision which has been sent to the Office of Federal Register for publication.

Sincerely,

Original signed by
 Daniel R. Muller

UNITED STATES NUCLEAR REGULATORY COMMISSION

DOCKET NO. 50-410

NOTICE OF AVAILABILITY OF DECISION OF THE
ATOMIC SAFETY AND LICENSING APPEAL BOARD
FOR THE NINE MILE POINT NUCLEAR STATION UNIT 2

Pursuant to the National Environmental Policy Act of 1969 and the United States Nuclear Regulatory Commission's regulations in Appendix D, Section A.9 and A.11, to 10 CFR Part 50, applicable to this proceeding, notice is hereby given that a Decision dated April 8, 1975, by the Atomic Safety and Licensing Appeal Board, which modifies the Initial Decision of the Atomic Safety and Licensing Board, dated June 14, 1974, in the above captioned proceeding, but affirms authorization of the issuance of a construction permit to the Niagara Mohawk Power Corporation for construction of the Nine Mile Point Nuclear Station Unit 2 located in Oswego County, New York, is available for inspection by the public in the Commission's Public Document Room at 1717 H Street, N.W., Washington, D.C., and in the Oswego City Library, 120 East Second Street, Oswego, New York 13126. The Decision by the Atomic Safety and Licensing Appeal Board is also being made available at the New York State Office of Planning Services, 488 Broadway, Albany, New York 12207, and at the Central New York Regional Planning and Development Board, 321 East Water Street, Syracuse, New York 13202.

Any decision or action taken by the Atomic Safety and Licensing Appeal Board in connection with the Initial Decision may be reviewed by the Commission.

DATE						

[The text in this block is extremely faint and illegible due to low contrast and noise. It appears to be several paragraphs of a document.]

Based on the record developed in the public hearing in the above captioned matter, the Decision of the Atomic Safety and Licensing Appeal Board modified^S in certain respects the Initial Decision of the Atomic Safety and Licensing Board as well as supplements the contents of the Final Environmental Statement prepared by the Commission's Office of Nuclear Reactor Regulation dated June 1973 related to the construction of the Nine Mile Point Nuclear Station Unit 2. Copies of the Initial Decision and the Final Environmental Statement are also available for public inspection at the above designated locations.

Pursuant to the provisions of 10 CFR Part 50, Appendix D, Section A.11, the Initial Decision of the Atomic Safety and Licensing Board and the Final Environmental Statement are deemed amended by the Decision of the Appeal Board. As required by Section A.11 of Appendix D, copies of the Decision by the Atomic Safety and Licensing Appeal Board and copies of the Initial Decision by the Atomic Safety and Licensing Board have been transmitted to the Council on Environmental Quality and made available to the public as noted herein.

Single copies of the Initial Decision by the Atomic Safety and Licensing Board, the Decision by the Atomic Safety and Licensing Appeal Board and the Final Environmental Statement may be obtained by writing the U.S. Nuclear Regulatory Commission, Washington, D. C., 20555, Attention: Director, Division of Reactor Licensing.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This ensures transparency and allows for easy verification of the data.

In the second section, the author details the various methods used to collect and analyze the data. This includes both qualitative and quantitative approaches. The goal is to identify trends and patterns that can inform future decision-making.

The third part of the report focuses on the results of the analysis. It shows that there has been a significant increase in sales over the period studied. This is attributed to several factors, including improved marketing strategies and a strong focus on customer service.

Finally, the document concludes with a series of recommendations for the future. It suggests continuing to invest in research and development to stay ahead of the competition. Additionally, it highlights the need for ongoing communication and collaboration between all departments.
