Re: Nine Mile Point Unit 1
Docket No. 50-220
DP-63

Dear Mr. Lear:

An April 26, 1976 letter from Mr. I. F. Stuart (General Electric) to Mr. V. Stello (Commission) identified the actions being taken by the Mark I Owners' Group for completion of the Short-Term Containment Evaluation Program documentation.

It is the purpose of this letter to inform you that the information contained in that transmittal does apply to Nine Mile Point Unit 1. Also, the plant-unique torus support system analysis, referred to in the letter, is being performed by Teledyne Materials Research and will be submitted by July 30, 1976.

Very truly yours,

NIAGARA MOHAWK POWER CORPORATION
