Re: Nine Mile Point Unit 1  
Docket No. 50-220-  
DPR-63

Dear Mr. Lear:

Our February 6, 1976 letter reported that an independent review was underway of information presented by General Electric and Bechtel at a January 28, 1976 meeting with the Commission. That review has been completed and confirms the conclusion presented at the meeting. The continued operation of Nine Mile Point Unit 1 does not present an undue safety hazard to the public, since the containment integrity would be maintained in the event of a Design Basis Accident.

A plant specific analysis, which was requested at the January 28 meeting, is currently underway. Completion is scheduled for mid-April, 1976.

Very truly yours,

NIAGARA MOHAWK POWER CORPORATION
