Re: Nine Mile Point Unit 1
Docket No. 50-220
DPR-63

Dear Mr. Lear:

In response to your letter of November 22, 1976, the following dates are provided regarding the Inservice Inspection Program at Nine Mile Point Unit 1.

Our next 40-month inspection interval will commence in December, 1979. This is based on a commercial operation date of December, 1969. In accordance with your 6-month lead time requirement, an appropriate Technical Specification amendment shall be submitted by June, 1979. This amendment will in general be in compliance with Section XI of the ASME Boiler and Pressure Vessel Code, 1977 edition (including the Summer 1978 Addenda). Exemptions, should they be required, will be submitted at this time. Our present program is in accordance with the 1974 edition (including the Summer 1974 Addenda). This letter supersedes my June 4, 1976 letter.

Very truly yours,

NIAGARA MOHAWK POWER CORPORATION
