Re: Nine Mile Point Unit 2
Docket No. 50-410

Dear Sir: **REGULATORY DOCKET FILE COPY**

Enclosed for your review are three copies of the design and analysis methods for the Revetment-Ditch System for Nine Mile Point Unit 2. This report is submitted in response to Section 2.4.5 of the Commission's Safety Evaluation Report which required certain additional information and analyses. We request that you first review and approve Section 4, "Physical Model Study," before evaluating the entire design since that study will determine the actual revetment design requirements. Expeditious approval is essential to maintain our present construction schedule.

Very truly yours,

NIAGARA MOHAWK POWER CORPORATION

GERALD K. RHODE
Vice President - Engineering
