Dear Mr. Giambusso:

Re: Nine Mile Point Unit 2
Docket No. 50-410

Your letter of October 10, 1973, described acceptable measures that should be taken to accommodate anticipated transients without scram. The attachment (WASH-1270) to your letter indicates that Nine Mile Point Unit 2 is in category "B". It is Niagara Mohawk's position that this categorization is appropriate. A detailed report addressing these transients will be submitted by October 1, 1974. This report will describe design provisions contemplated and contain sufficient analyses to demonstrate that consequences of these transients will be acceptable.

Very truly yours,

Philip D. Raymond
