Docket No. 50-410

Wm. H. Regan, Jr., Chief, Environmental Projects Branch 3, DSE

MEETING WITH NIAGARA MOHAWK POWER CORPORATION ON COOLING TOWERS FOR NINE MILE POINT #2 (NMP-2).

On February 26, 1976, 10:30 a.m., a meeting was held between the applicant on Nine Mile Point #2 and NRC staff concerning applicant's proposal to construct cooling towers in lieu of once through cooling presently provided for in the CP (see Enclosure 1 for list of attendees).

The following is a summary of items discussed:

1. At the present time there is no formal notification of NRC staff in the docket. The applicant has not finished yet any detailed evaluation of environmental considerations.
2. There is no safety related interaction of the proposed cooling towers and the NMP-2 plant; i.e. there is no association with the ultimate heat sink.
3. U. S. Army Corps of Engineers, Buffalo District, has problems with approval of construction activities relating to the Lake Ontario.
4. As a result of installation of cooling towers the cost-benefit analysis will change.
5. The applicant intends to notify NRC and provide an evaluation of the proposal in accordance with the terms of the CP. B. Bordenick indicated that he does not believe that NRC can go forward without prenoticing for a public hearing and an amendment to the CP.
6. The applicant expects to ask for bids on the towers in 1976.
7. Amendments to the PSAR are to be used as basis for inspection by I&E of safety related items.

The meeting adjourned at 12:20 p.m.
