October 5, 1965

Mr. Roger S. Boyd, Chief  
Research & Power Reactor Safety Branch  
Division of Reactor Licensing  
United States Atomic Energy Commission  
Washington, D. C. 20545

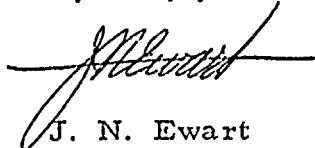

Dear Mr. Boyd:

Attached is a table of the data requested in your letter of September 16. This information is based on our current fuel design. We do not expect significant changes but some may occur before core design is made final.

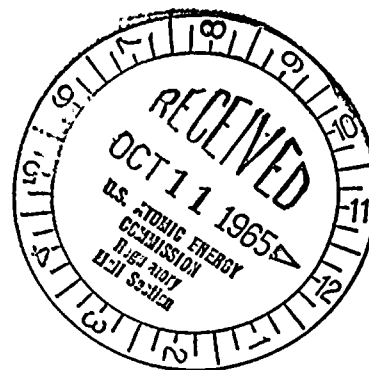

No material withdrawals will be required before the second quarter of fiscal year 1967. There will be no returns of special nuclear material until fiscal year 1968.

Very truly yours,

J. N. Ewart  
Chief System Project Engineer
