January 25, 1974

Mr. Donald J. Skovholt  
Assistant Director for Reactor Operations  
Division of Reactor Licensing  
United States Atomic Energy Commission  
Washington, D. C. 20545

Dear Mr. Skovholt:

Re: Nine Mile Point Unit 1  
Docket No. 50-220

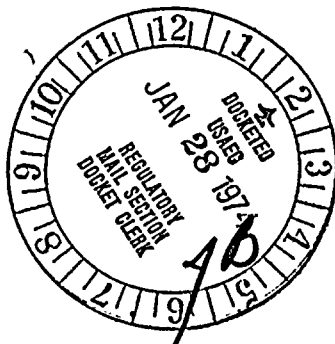

On July 26, 1973, we submitted a description of a proposed change to Nine Mile Point Unit 1 consisting of providing the reactor building crane with a redundant hoist system. This modification is intended to enhance safety during handling of the spent fuel shipping cask.

We wish to advise you at this time that present plans call for installation of the new crane system starting in July 1974.

Very truly yours,

Philip D. Raymond  
Vice President - Engineering

CVM/sjz
