Re: Niagara Mohawk Power Corporation
Docket No. 50-220

Dear Mr. Giambusso:

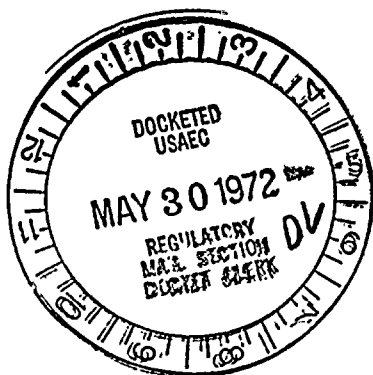

This letter will confirm our conversation of this morning about your letter of May 12, 1972 to Mr. Brosnan of Niagara Mohawk.

As I told you, Niagara Mohawk has not submitted an environmental report for its Nine Mile Point facility. It would therefore be meaningless to submit cost-benefit information without the submission of a complete environmental report.

Niagara Mohawk plans to file a petition to convert the Nine Mile Point provisional operating license to a full-term operating license on or about June 30, 1972. Accompanying that petition there will be, among other things, an environmental report which will contain a cost-benefit section.

Very truly yours,
