Regulatory

File Cy.

On March 10, 1970, 5:00 p.m., you were forwarded a TWX from Mr. P. A. Burt, Station Superintendent of our Nine Mile Point Nuclear Station.

It requested a temporary change in Technical Specifications to allow the water level in the vessel to be lowered to elevation 294 feet. This is 10 inches lower than that specified in Paragraph 2.1.1 (d) p. 6 and p. 9 of our Technical Specifications.

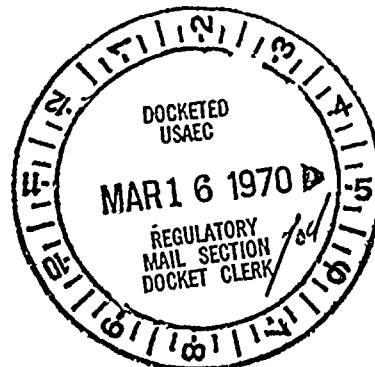

The TWX is to be considered an official request.

Very truly yours,

F. J. Schneider
