Vice President-Electric Operations

Gentlemen:

We have reviewed the revised Nine Mile Point/James A. FitzPatrick Nuclear Site requalification program for licensed operators and senior operators submitted on June 22, 1976. Specifically, your program has been revised as follows:

1. Paragraph 10.1.6 now requires a written quiz to be administered following each requalification lecture or series of lectures on a given topic.
2. Paragraph 10.2.1a now requires a quarterly review of each individual training manual instead of a monthly review as originally required.
3. A general revision has been made to change the word "will" to "shall" to more clearly define the requalification program requirements.

Based on our review of the material submitted, we have determined that the revised program continues to meet the requirements of Section 50.54(i-1) of 10 CFR Part 50 and Appendix A of 10 CFR Part 55.

Sincerely,

ORIGINAL SIGNED BY
