Dear Mr. Giambusso:

Re: Nine Mile Point Unit 1
Docket No. 50-220

The Technical Specifications for Nine Mile Point Unit 1 have been modified in accordance with the Commission's Order for Modification dated August 24, 1973, by adoption of Change No. 9 attached to the Order.

The maximum reactor power level that can be attained consistent with the Order is variable depending primarily on the operating power distribution at any given time. The present operating power distribution enables attainment of 1665 thermal megawatts.

Very truly yours,

Philip D. Raymond
Vice President-Engineering
