Dear Mr. Ziemann:

Re: Nine Mile Point Unit 1  
Docket No. 50-220

Your letter of July 26, 1973 requested additional information concerning two aspects of design and operation of Nine Mile Point Unit 1. This information is presently being prepared by our engineering staff.

The responses to Section B of the attachment to your letter will be submitted on or before September 10, 1973. These responses concern the access platform addition to the refueling bridge structure.

The information requested in Section A of the attachment to your letter concerns the quality assurance program for Nine Mile Point Unit 1 operation. Much of this information is similar to the information requested in your May 21, 1973 letter on the same subject. To preclude unnecessary iterations, the responses to the quality assurance requests contained in both of your letters will be combined into a single response. All of the information on quality assurance, including that previously requested, will be submitted on or before November 23, 1973.

Very truly yours,

Philip D. Raymond  
Vice President-Engineering
