LISLE, IL 60532-4352

February 7, 2017

Mr. Bryan C. Hanson
Senior VP, Exelon Generation Co., LLC
President and CNO, Exelon Nuclear
4300 Winfield Road
Warrenville, IL 60555

**SUBJECT: DRESDEN NUCLEAR POWER STATION, UNITS 2 AND 3 – OPERATOR
LICENSING REEXAMINATION APPROVAL**

Dear Mr. Hanson:

The purpose of this letter is to confirm the final arrangements for the upcoming operator licensing reexaminations at the Dresden Nuclear Power Station.

The U.S. Nuclear Regulatory Commission (NRC) has completed its review of the operator license reapplications in connection with this reexamination and separately provided a list of approved applicants to Mr. Thomas Dean, Training Director. Note that any examination waivers and application denials have been addressed in separate correspondence.

The NRC has approved the subject examinations. The NRC staff will administer the operating tests during the week of February 27, 2017. This examination has undergone extensive review by my staff and representatives responsible for licensed operator training at your facility. Based on this review, I have concluded that the examination meets the guidelines of NUREG-1021 for content, operational, and discrimination validity. By administering this examination, you also agree that it meets NUREG-1021 guidelines, and is appropriate for measuring the qualifications of licensed operator applicants at your facility. If you determine that this examination is not appropriate for licensing operators at your facility, do not administer the examination and contact me at 630-829-9834.

Please contact your Chief Examiner, Mr. Jesse Seymour, at 630-829-9561, if you have any questions or identify any errors or changes in the license level (reactor operator or senior reactor operator) or type of examination (partial or complete written examination and/or operating test) specified for each applicant.

B. Hanson
