Dear Mr. Paul Gunther:

I have been assigned as the Petition Manager for the 10 CFR 2.206 petition you submitted to the NRC on January 24, 2017, requesting that the NRC "take emergency enforcement action per 10 CFR 2.206 at U.S. reactors that currently rely on potentially defective safety-related components and potentially falsified quality assurance documentation supplied by AREVA-Le Creusot Forge and its subcontractor Japan Casting and Forging Corporation." Please advise me if you would like to address the PRB by February 9, 2017. If you would like to meet in person, I will need to schedule a formal public meeting at the NRC Headquarters. If you would prefer to address the PRB via phone, I will also work with you to coordinate a date/time during the upcoming weeks.

Thank you,

Merrilee Banic
