Subject: [External_Sender] West Texas nuclear waste dump site

As a Texas resident, I strongly oppose the plan to dump the nation's spent nuclear waste in West Texas. I don't think anyone can anticipate the potential impact on the people of Texas and the environment. Please leave West Texas alone and try to find a solution for deactivating the radiation from the waste. If we continue to use nuclear power, we need to find a better solution for safe waste disposal, if not for our generation, for our future generations.

Thank you for your consideration. And by the way, please do not send me a canned response. I want to know that someone actually listened to my opinion instead of just processing it as another faceless number.

Diann Nichols
