Subject: Docket No. 50-482: Revision of a Procedure that Implements the Radiological Emergency Response Plan (RERP) for Wolf Creek Generating Station (WCGS)

Gentlemen:

One procedure that implements the WCGS RERP has been revised. The revised document is identified below:

<u>Procedure</u>	<u>Effective Date</u>
EPP 06-009, Rev. 11	January 24, 2017

The attached summary of the changes to the implementing procedure explains that these changes do not reduce the effectiveness of the WCGS RERP. This letter contains no commitments. If you have any questions concerning this matter, please contact me at (620) 364-4204.

Sincerely,

Cynthia R. Hafenstine

Summary of Changes to One Procedure That Implements the Wolf Creek Generating Station (WCGS) Radiological Emergency Response Plan (RERP)

1. Procedure EPP 06-009, "Drill and Exercise Requirements," Rev. 11

This revision provides enhanced guidance for scenario package development and for drill and exercise critique participation. Step 7.3.4.7 was added so scenario conduct information will be included in each specific scenario section, instead of being included in the narrative summary for a scenario. Step 7.5.1 was changed to document that drill, exercise and emergency critiques involve all participants, controllers and evaluators.

Because the established critique process and the required content of drill and exercise scenarios did not change, these changes did not reduce the effectiveness of the WCGS RERP. Additional editorial changes were made throughout this procedure to improve consistency in terminology and to comply with station procedure writing requirements.
