I approve the staff's request to close the internal staff taskings related to the seismic and flooding walkdowns conducted in response to Near-Term Task Force Recommendation 2.3. Licensees completed these walkdowns, the NRC staff assessed the adequacy of the walkdowns, and the staff revised NRC's inspection procedures to incorporate lessons learned from the walkdowns.

I also approve the staff's request to update the agency's internal tracking of the flooding and seismic hazard reevaluations being conducted in response to Near-Term Task Force Recommendation 2.1. This tasking adjustment reflects the already-established schedule for the staff reviews of licensees' post-Fukushima flooding and seismic analyses.
