Dear Mr. Tran,

This correspondence is in regards to NRC Radioactive Materials License #24-20330-02 (Citizens Memorial Hospital, 1500 N. Oakland, and Bolivar, MO 65613)

On October 3rd, 2016, our facility submitted an amendment to your office for the addition of a new area of use, which was to be located on the First Floor of the Kerry and Synda Douglas Medical Center at CMH facility. (Please see the attached amendment).

Since the submission of that amendment, our administration has decided to suspend this project until further notice. Therefore, we are requesting that this amendment be withdrawn from our Docket with no action to be taken at this time. Should our facility decide to pursue this project in the future, we will submit another amendment for your review at that time.
