Dear Mr. Grier:

Re: Nine Mile Point Unit 1
Docket No. 50-220

Your September 29, 1978 IE Bulletin 78-12 addresses atypical weld material used in reactor pressure vessel welds and requested certain documentation for all primary reactor pressure vessel weldments. Since that time we have received your November 24, 1978 IE Bulletin 78-12A which modifies the requirements of IE Bulletin 78-12.

Niagara Mohawk will respond to IE Bulletin 78-12 by addressing the requests in IE Bulletin 78-12A by March 23, 1979.

Sincerely,

NIAGARA MOHAWK POWER CORPORATION

Vice President-Electric Production
