Your letter of March 12, 1979 requested information concerning our March 2, 1979 license amendment for Nine Mile Point Unit 1. The attachments listed below to this letter address those concerns.

- 1) Offsite Dose Calculation Manual
- 2) Waste Solidification Technical Specifications
- 3) Administrative Control Technical Specifications

These are to be included as part of the original amendment. The Process Control Program is under review with Chem Nuclear for Nine Mile Point Unit 1 and will not be finalized until the end of May, 1979.
